

MyGlucoHealth® Diabetes Management App Reaches Global Market

International Downloads of MyGlucoHealth Mobile Application
from Ovi Store by Nokia Approaches 150,000 in Less than 9 Weeks

June 2, 2010 — San Diego, California — In the weeks following the introduction of the MyGlucoHealth App for mobile diabetes management on the Ovi Store by Nokia, worldwide downloads are approaching 150,000 and increasing daily. The MyGlucoHealth App allows Nokia handset users to upload and manage blood glucose readings using the MyGlucoHealth Wireless meter.

“To date, India, Saudi Arabia and the Middle East have shown the highest number of downloads and use of the application outside of the United States,” said John Hendel, Chairman of Entra Health Systems. “Strong response from Spain, Mexico and a number of South American nations has encouraged us to accelerate Spanish language localization and distribution of the product. The same is true in the European Community, where adoption of the MyGlucoHealth App has been especially strong in Italy, France, Germany and Great Britain. In recent weeks, downloads from Indonesia, Malaysia and Vietnam has directed our focus on broader distribution and language support throughout the Asia Pacific.”

The MyGlucoHealth App empowers patients to stay connected, manage their diabetes and improve their lives and lifestyles using the MyGlucoHealth Wireless meter and Nokia phone. The App allows users to wirelessly upload blood tests to an online portal, review results on their handset, as well as chart data or enter weight and nutritional information. In addition, MyGlucoHealth can notify family, physicians or caregivers with automated text message alerts and reminders when results exceed personally established threshold limits.

Entra Health and Nokia, the world's leading maker of mobile handsets, are teaming to co-market integrated mHealth solutions that employ the MyGlucoHealth Wireless blood glucose meter. The MyGlucoHealth Mobile App is available for free through Ovi Store at www.store.ovi.com for Nokia smartphones and feature phones running the Symbian and Series 40 operating systems*. New Nokia phones are being added to the list daily. Contact the MyGlucoHealth Customer Care Hotline if your phone is not currently supported. The MyGlucoHealth Wireless meter is available from www.myglucohealthstore.com and other major outlets worldwide.

*The MyGlucoHealth App is currently compatible with the following Nokia handsets:

Nokia 5230, Nokia N97, Nokia 5530 XpressMusic, Nokia N97 mini, Nokia 5800 XpressMusic, Nokia X6, Nokia 5320 XpressMusic, Nokia 6790 Slide, Nokia 5630 XpressMusic, Nokia 6790 Surge, Nokia 5730 XpressMusic, Nokia E52, Nokia 6210 Navigator, Nokia E55, Nokia 6220 Classic, Nokia E71x, Nokia 6710 Navigator, Nokia E72, Nokia 6720 Classic, Nokia E75, Nokia 6730 Classic, Nokia N78, Nokia 6650 Fold Nokia N79, Nokia 6700 Slide, Nokia N85, Nokia 6760 Slide, Nokia N86 8MP, Nokia 6788, Nokia N96, Nokia 5700 XpressMusic, Nokia E66, Nokia 6110 Navigator, Nokia E71, Nokia 6120 Classic, Nokia E90 Communicator, Nokia 6121 Classic, Nokia N76 Nokia 6122, Nokia N81, Nokia 6124 Classic, Nokia N81 8GB, Nokia 6290, Nokia N82, Nokia E51, Nokia N95, Nokia E63, Nokia N95 8GB, Nokia E50, Nokia N73, Nokia E60 Nokia N75, Nokia E61, Nokia N77, Nokia E61i, Nokia N80, Nokia E62, Nokia N92, Nokia E65, Nokia N93, Nokia E70, Nokia N93i, Nokia N71, Nokia 2710 Navigation, Nokia 6700 Classic, Nokia 3710 Fold, Nokia 6750 Mural, Nokia 3720 Classic, Nokia 7020, Nokia 5330 Mobile TV, Nokia 7230, Nokia 6260 Slide, Nokia 7510 Supernova, Nokia 6303 Classic, Nokia X3, Nokia 6350, Nokia 5300 XpressMusic, Nokia 7373, Nokia 6300, Nokia 7390.
